Surgical Stapling Range

purple surgical

# The *Ultimate* Reloadable Linear Cutter Stapler

The **Purple Surgical *Ultimate*** Reloadable Linear Cutter Stapler places two double staggered rows of titanium staples and simultaneously cuts and divides tissue between the two double rows.

The **Purple Surgical *Ultimate*** Reloadable Linear Cutter Stapler is available in 60mm and 80mm staple lengths with reload units available for both standard tissue (3.8mm), and thick tissue (4.8mm). Each device may be reloaded up to 7 times for a maximum of 8 firings per patient. The ergonomic design, with rubber grip inlays and flexible dual lever for left or right handed staple firing, facilitates user comfort and control. Staple formation creates the perfect 'B' shape on each and every firing, for improved clinical performance.

Features and benefits include:

- New blade with each cartridge guarantees smooth, precise transection with each firing, reducing the risk of cross infection
- Automatic safety lock-out mechanism incorporated within each cartridge
- Rear hinge allows for one handed operation
- Adjustable firing lever enables you to fire from either side of the device

Anatomy suitable for this device includes:

**General Surgery** - Stomach | Duodenum | Small Bowel | Liver | Colon  
**Gynaecological Surgery** - Fallopian Tubes | Ovaries  
**Urologic Surgery** - Bladder  
**Thoracic Surgery** - Parenchyma

# The *Ultimate*

Reloadable Linear Stapler  
with Indicator

Cutting guide offers safety during transection

Low profile design for easy access

Ergonomic, single handed firing lever with rubber grips

Release button cancels firing process at stages 1, 2 or 3

Colour coded indication window:

- 1 Neutral position
- 2 Retaining pin engaged
- 3 Tissue compressed between cartridge & anvil
- 4 Staples fired

The **Purple Surgical Ultimate** Reloadable Linear Stapler with Indicator places two staggered rows of titanium staples, and is available in 30mm, 45mm, 60mm and 90mm staple line lengths with reload units available for both standard tissue (3.5mm) and thick tissue (4.8mm).

The **Purple Surgical *Ultimate*** Reloadable Linear Stapler with Indicator may be reloaded up to 7 times for a maximum of 8 firings per patient. The ergonomic design, with rubber grip and single handed firing lever, facilitates user comfort and control. Staple formation creates the perfect 'B' shape on each and every firing for improved clinical performance.

Features and benefits include:

- Cutting guide for enhanced safety during transection
- Colour coded indication window for easy cancellation at stages 1 to 3
- Retaining pin can either be manually or mechanically engaged
- Available in 4 size options (30mm, 45mm, 60mm and 90mm)

Anatomy suitable for this device includes:

**General Surgery** - Oesophagus | Stomach | Duodenum | Small Bowel | Liver | Colon | Pylorus  
**Gynaecological Surgery** - Fallopian Tubes | Ovaries  
**Thoracic Surgery** - Parenchyma | Bronchus

# The *Ultimate* Circular Stapler with Dual Safety

The **Purple Surgical *Ultimate*** Circular Stapler with Dual Safety places a circular staggered double row of titanium staples in the tissue and resects excess tissue to create a circular anastomosis.

The **Purple Surgical *Ultimate*** Circular Stapler with Dual Safety is available in 5 size options, indicated by colour coded anvil heads. 3 staple sizes are available to provide optimal tissue thickness matching. The ergonomic design and textured firing handle facilitates user comfort and control. Staple formation creates the perfect 'B' shape staple when the red line is positioned centrally within the green firing indicator window.

Features and benefits include:

- Dual safety lock-out mechanism prevents misfiring
- Atraumatic Dilating Tip Trocar for reduced trauma
- Fin design Wing Nut for easy counting of full or half turns
- Available in 5 size options with 3 open staple heights and variable closed staple heights for greater choice and flexibility

Anatomy suitable for this device includes:

**General Surgery** • Oesophagus | Stomach | Duodenum | Colon | Rectum

## *Ultimate* Circular Stapler with Dual Safety

# The **Ultimate** Circular Stapler with Dual Safety & Tilt Top Anvil

Low profile Tilt Top Anvil for easy insertion and removal

Green firing indicator window offering variable closed staple heights

Angled quick release Wing Nut for faster opening and closing

Dual safety lock-out mechanism prevents misfiring

Vented anvil for vacuum release

The **Purple Surgical Ultimate** Circular Stapler with Dual Safety & Tilt Top Anvil places a circular staggered, double row of titanium staples in the tissue and resects excess tissue to create a circular anastomosis.

The **Purple Surgical Ultimate** Circular Stapler with Dual Safety & Tilt Top Anvil is available in 4 size options indicated by colour coded anvil washers. 3 staple sizes are available to provide optimal tissue thickness matching. The ergonomic design and textured firing handle facilitates user comfort and control. Staple formation creates the perfect 'B' shape staple when the red line is positioned centrally within the green firing indicator window.

Features and benefits include:

- Dual safety lock-out mechanism prevents misfiring
- Vented, low profile Tilt Top Anvil releases vacuum and minimises the potential of tissue trauma on removal
- Angled Wing Nut for easy counting of full and half turns
- Available in 4 size options with 3 open staple heights and variable closed staple heights for greater choice and flexibility

Anatomy suitable for this device include:

**General Surgery** • Oesophagus | Stomach | Duodenum | Colon | Rectum

# Skin Stapler

*High quality, cost effective solution for wound closure*

The **Purple Surgical** Skin Stapler is a reliable, high quality, cost effective solution for wound closure. The device is simple, quick and easy to use with an ergonomic design to facilitate maximum control and offers exceptional performance.

Features and benefits include:

- High quality device guaranteeing exceptional performance
- Creates the perfect staple formation for effective wound closure
- Lightweight, slim design
- Ergonomic handle incorporating finger grip design for maximum control of staple placement
- Clear visibility for easy identification of remaining staples
- Simple, quick and easy to use
- Available with 35 wide pre-loaded staples

**35 Wide**

Formed Staple Size
